## About Us

SOGEC (Specialized Oil & Gas Engineering Company) is a part of Kabbani Construction Group, which was established in 1979 and commenced its activities as a specialized maintenance contractor. It grew steadily over the past 30 years to become consistently rated among the 50 largest companies in Saudi Arabia. Taking advantage of the group's financial & human resources, SOGEC was initially launched in 2001 as a part of the Kabbani Construction Group to meet the acute needs of Corrosion Control, Non-Destructive Testing, Heat Treatment, and Inspection Services required by the oil & gas industry through the vast experience gained by the division's engineering and technical staff.

SOGEC is a 100% Saudi National Company registered with the Ministry of Commerce under Commercial Registration No. 4030133192. SOGEC has acquired extensive professional experience in the fields of Corrosion Control, Non-Destructive Testing, Heat Treatment, and Inspection Services for pipelines, plant piping, tanks, vessels, jetties, steel-reinforced concrete, etc.

## Our Vision

To be the chief source of Corrosion Control, Non-Destructive Testing, Heat Treatment, and Inspection Services in the Middle East by providing safe, reliable, and cost-effective solutions and services.

# Our Values

We **RESPECT** all individuals whether customers, suppliers or team members.

We **CARE** about the community by being active in social contributions.

We **PROTECT** assets that are the reasons for a better lifestyle.

We **SUPPORT** all our contacts, anytime, anywhere.

We **HONOR** commitments with all our partners.

“ At SOGEC, we understand the importance of constant development to cope with the fast-growing industry of Oil and Gas. It’s not an option, it’s essential to not only survive but to evolve and grow. ”

# Safety

SOGEC's utmost and primary priority at all times and places is to ensure safety in all of its plans. The culture of safety is not a goal for us, it is a way of life that we implement in every aspect of our activities, whether while driving a car, installing a system, or even replacing a light bulb on our premises.

Loss prevention measures are always being audited, recorded, and analyzed to implement better and safer practices while delivering services.

For a human being, what matters most to us is that we never willfully jeopardize or risk any of our employees or affiliates' personnel under any circumstances.

# Health and Safety Credentials

**ISAM KABBAN & PARTNERS FOR CONSTRUCTION MAINTENANCE CO. LTD.**  
 شركة عصام كبابي وشركاه للإنشاءات والصيانة ذ.م.ك  
 ISAM KABBAN CONSTRUCTION GROUP

### Quality Environmental Health and Safety Policy

The Policy of ISAM KABBAN & PARTNERS Co. Ltd. is to provide construction and maintenance services that comply with and satisfy all customers' and other interested parties' expectations. The internal implemented procedures and techniques are fully compatible with the company's context and support its strategic direction through the achievement of the following goals:

- Pursue the highest level of quality regardless of project scale.
- Constantly satisfy and support the clients' requirements.
- Promote the qualities and achievement of the company with the objective of attaining and expanding a client project base, an encouraging a sense of pride and satisfaction with the workforce itself.

In order to achieve the above, the company is committed to:

- Maintain a high profile in leading the quality, environmental, health and safety awareness strategy to ensure compliance with requirements and continuously improve the effectiveness of the management systems operated.
- Constantly satisfy and support the clients' requirements.
- Prevent all types of pollution through establishing and implementing the necessary environmental programs.
- Set up the necessary quality, environmental, health and safety objectives which can improve internal systems.
- Comply with applicable environmental, health and safety legislation and other requirements to which the organization subscribes.
- Communicate the policy to all employees, interested parties and persons working for or on behalf of the organization.
- Identify and provide relevant training to its staff, and give them the opportunity to contribute to the continuous improvement of quality, environmental, health and safety management systems.
- Preservation of the world's natural resources and to society of which we are a part in terms of any environmental impact resulting from our processes.
- Implement progressive health and safety practices that apply risk management and safety principles to our operations.
- Prevent of injury and ill health which can be caused by our operations.

Accordingly we continue to promote the already established learning culture, which encourages everyone to develop their levels of competence and to be recognized as a truly learner to People throughout international presence. All managers will, by direction and example, ensure that this policy is understood, implemented, reviewed and maintained throughout our organization and reviewed periodically to ensure that it remains relevant and appropriate to the organization. This requires the total involvement and commitment of every employee in the organization and support by all management in meeting the requirements of our Quality, Environmental, Health and Safety Management System according to ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 together with all Legislation and Codes of Practice relevant to our industry.

# our Services

Cathodic Protection

Internal Corrosion Services

Pipeline Direct Assessment

Vapor Corrosion Inhibitor (VCI)

Non-Destructive Testing (NDT)

Heat Treatment

Inspection Services

## Cathodic Protection

**Cathodic Protection Services:** whether the project is a pipeline, tank, offshore, or concrete structure, SOGEC will design the right, economical, and most efficient Cathodic Protection (CP) System to protect the structure with the minimum required maintenance.

### Cathodic Protection Services include:

- 1 Pre-Design & Site Survey of the Cathodic Protection System
- 2 Cathodic Protection System Design
- 3 Manufacturing & Supply of Cathodic Protection Materials
- 4 Installation of Cathodic Protection Systems
- 5 Testing, Commissioning & Monitoring of Cathodic Protection Systems
- 6 Over-the-Line Surveys
- 7 AC Interference Mitigation Systems

## Internal Corrosion

**Internal Corrosion Services:** SOGEC is also capable of developing efficient Corrosion Management Programs and providing Corrosion Monitoring Services.

**Internal Corrosion Services include:**

- 1 Online Coupon and Probe Retrieval
- 2 Corrosion Analysis in our well-established in-house laboratory
- 3 Data Logging and Remote Monitoring

## Pipeline Direct Assessment

**Pipeline Direct Assessment (DA):** is a proactive inspection technique that can help identify and prioritize threats to pipelines. DA is a valuable tool for pipeline operators who want to anticipate where corrosion might happen and take steps to mitigate or repair damage before it becomes a problem.

We have a high level of knowledge and experience in DA, and we can help assess the integrity of pipelines and develop a plan to keep them safe.

### Pipeline Direct Assessment Services include:

- 1 External Corrosion Direct Assessment (ECDA)
- 2 Internal Corrosion Direct Assessment (ICDA)
- 3 Stress Corrosion Cracking Direct Assessment (SSCDA)

## Vapor Corrosion Inhibitor (VCI)

**Vapor Corrosion Inhibitor services:** SOGEC/Zerust Oil & Gas Tank SSB Inhibitor Delivery System (IDS) offers a variety of VCI services that can help mitigate the underside corrosion of aboveground storage tanks. Our services are cost-effective and can be used on single or double-tank bottoms, regardless of the substrate. VCI systems can help extend the serviceable life of assets by protecting them from corrosion.

### Vapor Corrosion Inhibitor Services include:

- 1 Chime Ring Dry
- 2 Chime Ring Injection
- 3 Underside Injection
- 4 Underside Drip Tube
- 5 Dry Tube
- 6 Internal Flood
- 7 Inhibitor IDS System benefits
- 8 Solution Effectiveness
- 9 Pipeline Casing Protection (Liquid, powder & Gel)
- 10 Equipment Preservation

## Non-Destructive Testing

**Non-Destructive' Services:** SOGEC has many years of experience providing traditional NDT services and is also a leader in advanced NDT techniques.

We are committed to providing our customers with high-quality NDT services that meet their specific needs. All our NDT services are supported by our experienced team and performed in accordance with our ISO 9001:2000 Quality Program.

### Non-Destructive Services include:

- 1 ASNT Level III Consulting Services
- 2 Radiographic Testing (RT)
- 3 Ultrasonic Thickness Gauge Testing (UTT)
- 4 Ultrasonic Shear Wave Testing (UT)
- 5 Leak Detection
- 6 Dye Penetrant Testing (DPT)
- 7 Phase Array Ultrasonic Testing (PAUT)
- 8 Visual Inspection
- 9 Magnetic Particle Testing (MPT)
- 10 TOFD
- 11 In-situ Metallography
- 12 Internal Rotary Inspection System (IRIS)
- 13 Magnetic Flux Leakage (MFL)

## Heat Treatment

**Heat Treatment Services:** SOGEC has a high level of knowledge and experience in this service and a variety of equipment to make sure that client needs related to Heat Treatment are fulfilled with the utmost quality.

The HT team consists of around 97 experienced employees of different crafts (Engineers, Technicians, Inspectors, Helper, Specialists, etc...).

### Heat Treatment Services include:

- 1 Post-Weld Heat Treatment (PWHT)
- 2 Pre-Heating
- 3 Refractory Dry-out
- 4 Solution Annealing
- 5 Hardness Testing
- 6 Furnaces
- 7 Stress Relieving
- 8 Internal Firing
- 9 Positive Material Identification (PMI)
- 10 Normalizing

## Inspection Services

**Inspection Services:** at SOGEC, we have highly qualified and experienced certified Welding Inspectors and Metallurgists to provide a complete range of services like PQR qualification, NDT and PWHT of test coupons, and mechanical testing of the test pieces.

In addition to expert welding inspectors (AWS CWI / CSWIP) who can test welders using the necessary methods as required by the many welding codes and standards.

Our API Inspection team is specialized in providing both on-site and off-site management to complete your turnaround on schedule and support while your plant is in operation, in addition to turnaround-based inspection programs.

### Inspection Services include:

- 1 PQR Qualification
- 2 WQT Witnessing
- 3 API Inspection

### Third-Party Inspection Services include:

- 1 Technical Support Services for Shutdowns or Longterm
- 2 Welding Procedure Qualification Record and Welder Qualification Testing
- 3 Painting and Coating Inspection

# our Projects

## China Petroleum Pipeline Engineering Co-CPP

**Location:** Haradh, Saudi Arabia.

**Scope of Work:** Cathodic Protection System for North Gas Compression Plants (NGCP) Pipelines Project BI-02029-0003 (Permanent Material) for Saudi Aramco.

## Aramco

**Location:** Saudi Arabia.

**Scope of Work:** Terrain and Soil Corrosivity Survey along Saudi Aramco Transmission Pipeline Corridors.

### ↳ National Petroleum Construction Company PJSC. (NPCC)

**Location:** Zuluf, Saudi Arabia.

**Scope of Work:** Cathodic Protection System for North Gas Compression Plants (NGCP) Pipelines Project BI-02029-0003 (Permanent Material) for Saudi Aramco.

### ↳ Specialized Industrial Services Co. Ltd. (SISCO)

**Location:** Turaif, Saudi Arabia.

**Scope of Work:** Cathodic Protection System for CRPO 4 Project in Turaif for Aramco.

### ↳ Tecnicas Reunidas Saudia

**Location:** Haradh and Hawiyah, Saudi Arabia.

**Scope of Work:** Cathodic Protection System for Haradh and Hawiyah Gas Compression.

### ↳ Saudi Aramco Total Refining & Petrochemicals Company

**Location:** Al Jubail, Saudi Arabia.

**Scope of Work:** Non-Destructive Testing for Covering all Conventional NDT Services For two months shut down pipeline corridors.

**Aramco Yanbu Refinery**

**Location:** Yanbu.

**Scope of Work:** Non-Destructive Testing for Supplying 37 API Inspectors & 4 Data Maintainers for two months of shutdown in the Refinery.

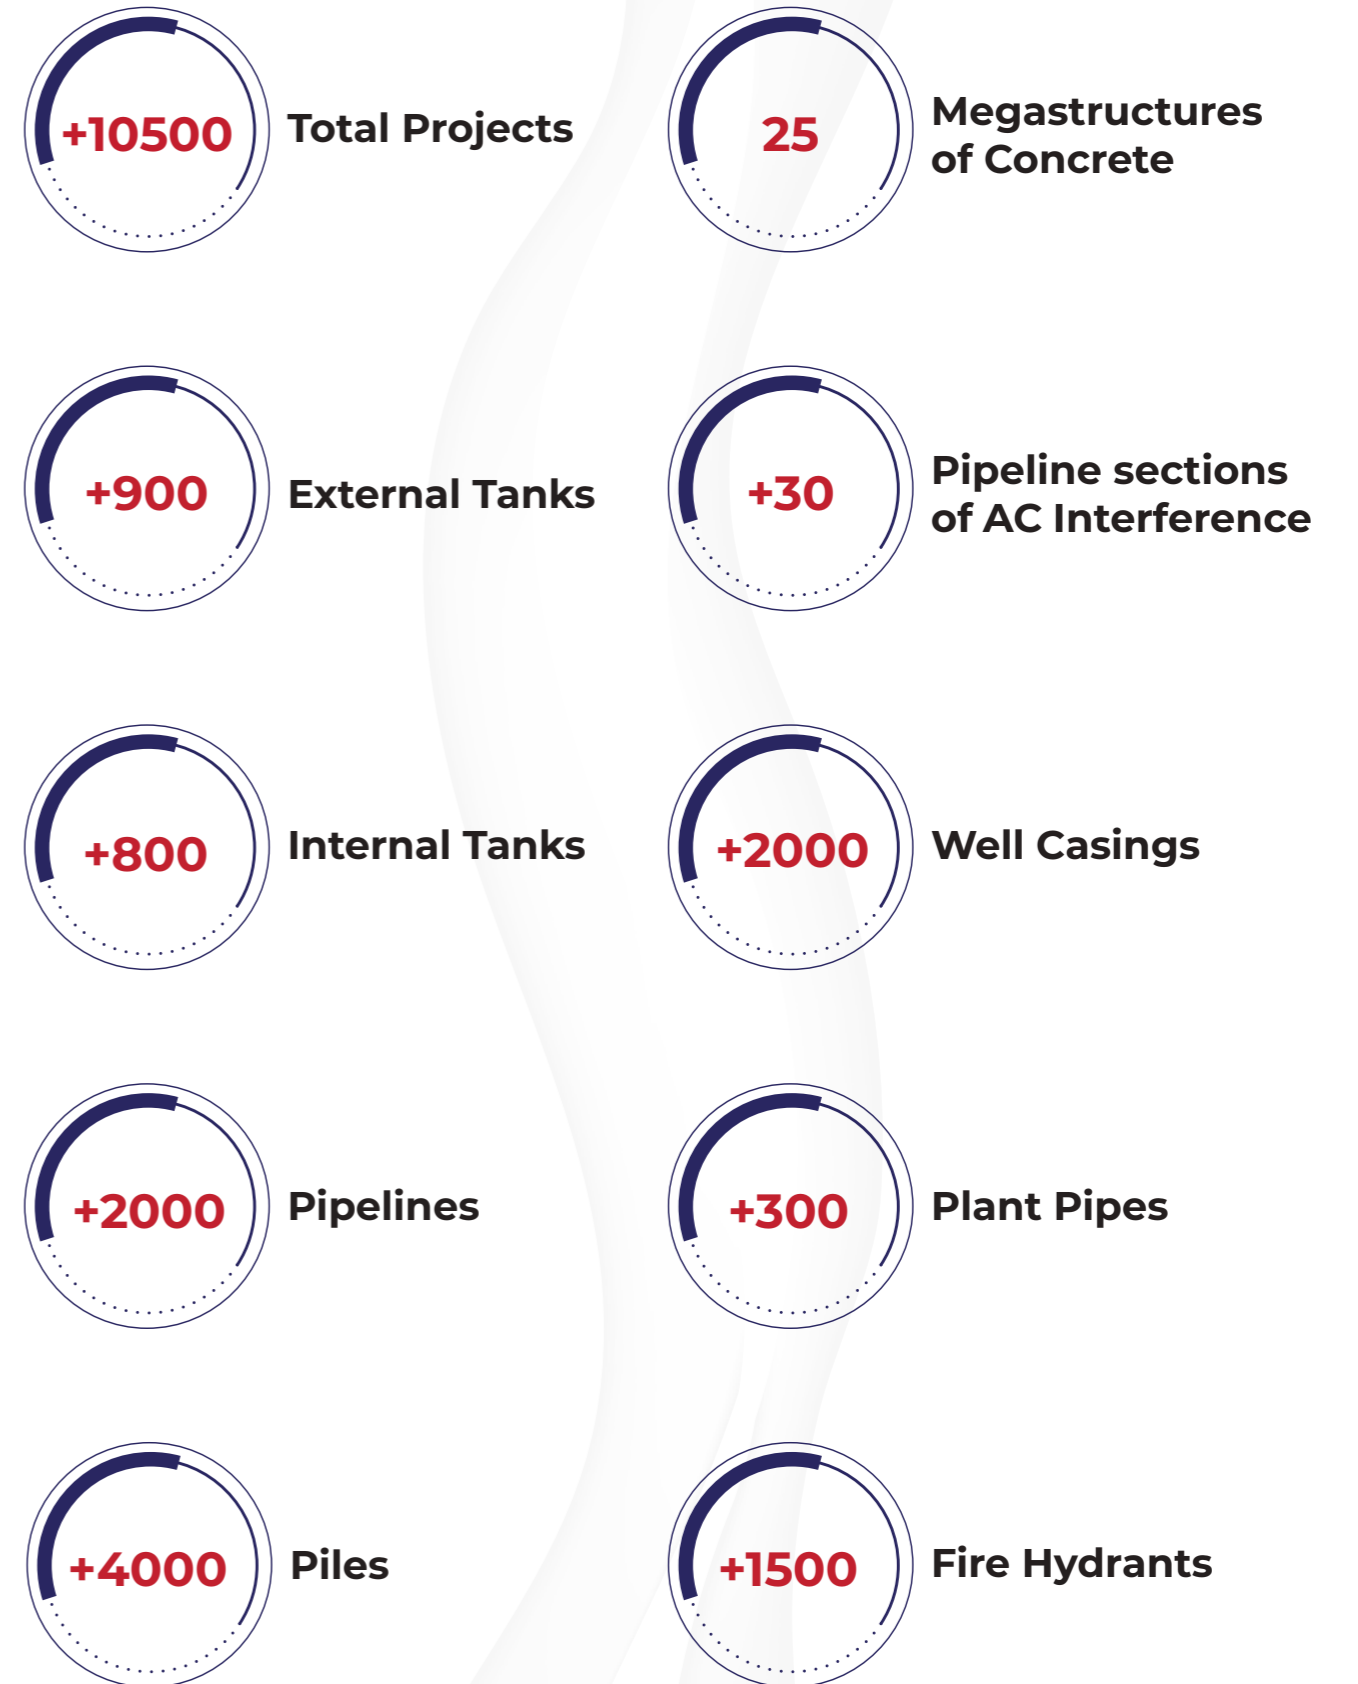

**C.A.T. International Company**

**Location:** Shaybah.

**Scope of Work:** Non-Destructive Testing for Covering all UTT Jobs for Five Months.

**Projects in Numbers**

# our Partners & Clients

## Our Partners

Sogec is proud to be an authorized distributor in the Kingdom of Saudi Arabia of the following highly recognized international suppliers and service providers.

## Our Clients

## Kabbani Construction Group

### KCG

IKK's contracting vehicle, consisting of 23 specialized construction companies. Upon targeting excellent standards, our teams of specialists dedicate their exceptional skills and experience to providing impeccable quality and performance that sets an example for others in our industry and marks hammering steps into the future.

### 1977

Since its inception in the 70s, KCG has evolved and expanded to become one of the largest specialized contractors in the GCC & MENA regions, providing digital construction services, archeological services, construction services for infrastructure & roads' construction, oil & gas, industrial insulation, commercial & residential structures, structure assessment & repairs, strengthening solutions, airfields & rigid pavement, engineered heavy steel, structure fabrication & construction, cathodic protection, and solar energy.

### 5000+

KCG possessed a large inventory of equipment for carrying out mega projects, infrastructure works, innovative construction projects, & Specialized Construction Applications.

Our product range has been carefully selected to meet the growing demand for advanced engineering materials & solutions.

## Our Vision

Our vision is to maintain and improve our leading position as a contractor whose reputation is built on the ability to completely satisfy customers by providing high-quality services. Our teams of professionals are dedicated to a standard of excellence for quality and performance through continuous development, which will set standards in our industry. We are simply providing solutions for a future of success.

## Our Mission

To provide the Arab world with local & reliable services in a variety of sectors and products. Creating employment for thousands of personnel and in-house training for hundreds of young Arab graduates to the benefit of the IKK Group, the graduates themselves, and their own communities.

## KCG Business philosophy

We are here to support you. Think of us as your neighbor with the fully stocked tool shed who is always willing to lend a helping hand.

We support and guide you, relying on our knowledge and experience to explore and find fully capable solutions.

We give our employees the freedom to determine their own career paths and fulfill their targets.

We empower our clients by customizing our solutions to meet their specific requirements.

We strengthen our community by introducing them to what is possible today and laying a solid foundation for the future.

KCG is committed to meeting its fundamental responsibilities to shareholders, employees, customers, and suppliers.

## About IKK

At Isam Khairi Kabbani Group, we are building the future with over five decades of experience through our four main divisions: Manufacturing, Trading, Contracting, and Maintenance & Services, with over 40 companies in the Kingdom of Saudi Arabia and the MENA region. We have a rich history of innovation in providing quality products and solutions with certified local and international standards to serve the construction industry and beyond, reaching more than 20 countries worldwide.

## IKK Group of Companies

IKK's contracting vehicle is KCG, which consists of 23 specialized construction businesses and divisions.

A prominent distributor of high-quality modern plastic piping systems, representing a number of important national and international companies.

Neproplast, a part of NAMAT Company, is a manufacturer Advanced Plastic Piping System Products such as: PVC, CPVC, HDPE, COD pressure, and non-pressure applications marketed and distributed exclusively through National Marketing Est. Co. Ltd.

UNITECH is a well-known "Solutions Provider" company within the region. It specializes in the design, manufacturing, trading, and specialized procurement of building and construction materials.

IKK Glass is a leading manufacturer of processed architectural glass products in Saudi Arabia, offering a wide range of glass products, including: Heat-Treated Glass, Insulated Glass (IGU), Curved Glass, Laminated Glass, Digital Printed Glass, Laser Etched Glass, Sandblasted Glass, Printed Glass, Acid-etched Glass, Heat-Soaked Glass, and Bullet Resistant Glass.

IKK Mateenbar produces high-quality glass-fiber-reinforced polymer (GFRP) rebar.

## IKK Group Vision & Mission

**Our vision** is to be one of the leading organizations within the construction industry and beyond.

**Our mission** is to continue providing innovative solutions in manufacturing, contracting, and trading.
