About Us

SOGEC (Specialized Oil & Gas Engineering Company) is a part of Kabbani Construction Group, which was established in 1979 and commenced its activities as a specialized maintenance contractor. It grew steadily over the past 30 years to become consistently rated among the 50 largest companies in Saudi Arabia. Taking advantage of the group's financial & human resources, SOGEC was initially launched in 2001 as a part of the Kabbani Construction Group to meet the acute needs of Cathodic Protection, Corrosion Control, Vapor Corrosion Inhibitor, Non-destructive Testing, Heat Treatment, and Inspection Services required by the oil & gas industry through the vast experience gained by the division's engineering and technical staff.

SOGEC is a 100% Saudi National Company registered with the Ministry of Commerce under Commercial Registration No. 4030133192. SOGEC has acquired extensive professional experience in the fields of Cathodic Protection, Corrosion Control, Non Destructive testing, Heat treatment, Vapor Corrosion Inhibitor and Inspection Services for Pipelines, Plant Piping, Tanks, Vessels, Jetties, Steel-Reinforced Concrete, etc.

Our Vision

To be the chief source of Corrosion Control, Non-Destructive Testing, Heat Treatment, and Inspection Services in the Middle East by providing safe, reliable, and cost-effective solutions and services.

Our Values

We **RESPECT** all individuals whether customers, suppliers or team members.

We **CARE** about the community by being active in social contributions.

We **PROTECT** assets that are the reasons for a better lifestyle.

We **SUPPORT** all our contacts, anytime, anywhere.

We **HONOR** commitments with all our partners.

“ At SOGEC, we understand the importance of constant development to cope with the fast-growing industry of Oil and Gas. It’s not an option, it’s essential to not only survive but to evolve and grow. ”

Health & Safety

SPD's primary priority at all times and places is to ensure safety in all of its plans. The culture of safety is not a goal for us; it is a way of life that we implement in every aspect of our activities, whether while driving a car, installing a system, or even replacing a light bulb on our premises.

Loss prevention measures are always being audited, recorded, and analyzed to implement better and safer practices while delivering services.

Above all, we ensure that we never willfully jeopardize or risk any of our employees or affiliated personnel under any circumstances.

Health and Safety Credentials

ISAM KABBANI AND PARTNERS FOR CONSTRUCTION AND MAINTENANCE CO. LTD. Quality, Health, Safety, Environmental, Facility & Sustainability Management Policy Statement. The Policy of ISAM KABBANI & PARTNERS Co. Ltd. is to provide construction, maintenance, facility, and engineering services that comply with and satisfy all customers' and other interested parties' needs and expectations.

ISAM KABBANI AND PARTNERS FOR CONSTRUCTION AND MAINTENANCE CO. LTD. 11. Promote sustainable procurement by integrating environmental, social, and economic considerations into supplier selection and evaluation. 12. Support and collaborate with suppliers to improve their sustainability performance and encourage innovation.

our Services

Cathodic Protection

Corrosion Monitoring

Vapor Corrosion Inhibitor (VCI)

Non-Destructive Testing (NDT)

Heat Treatment

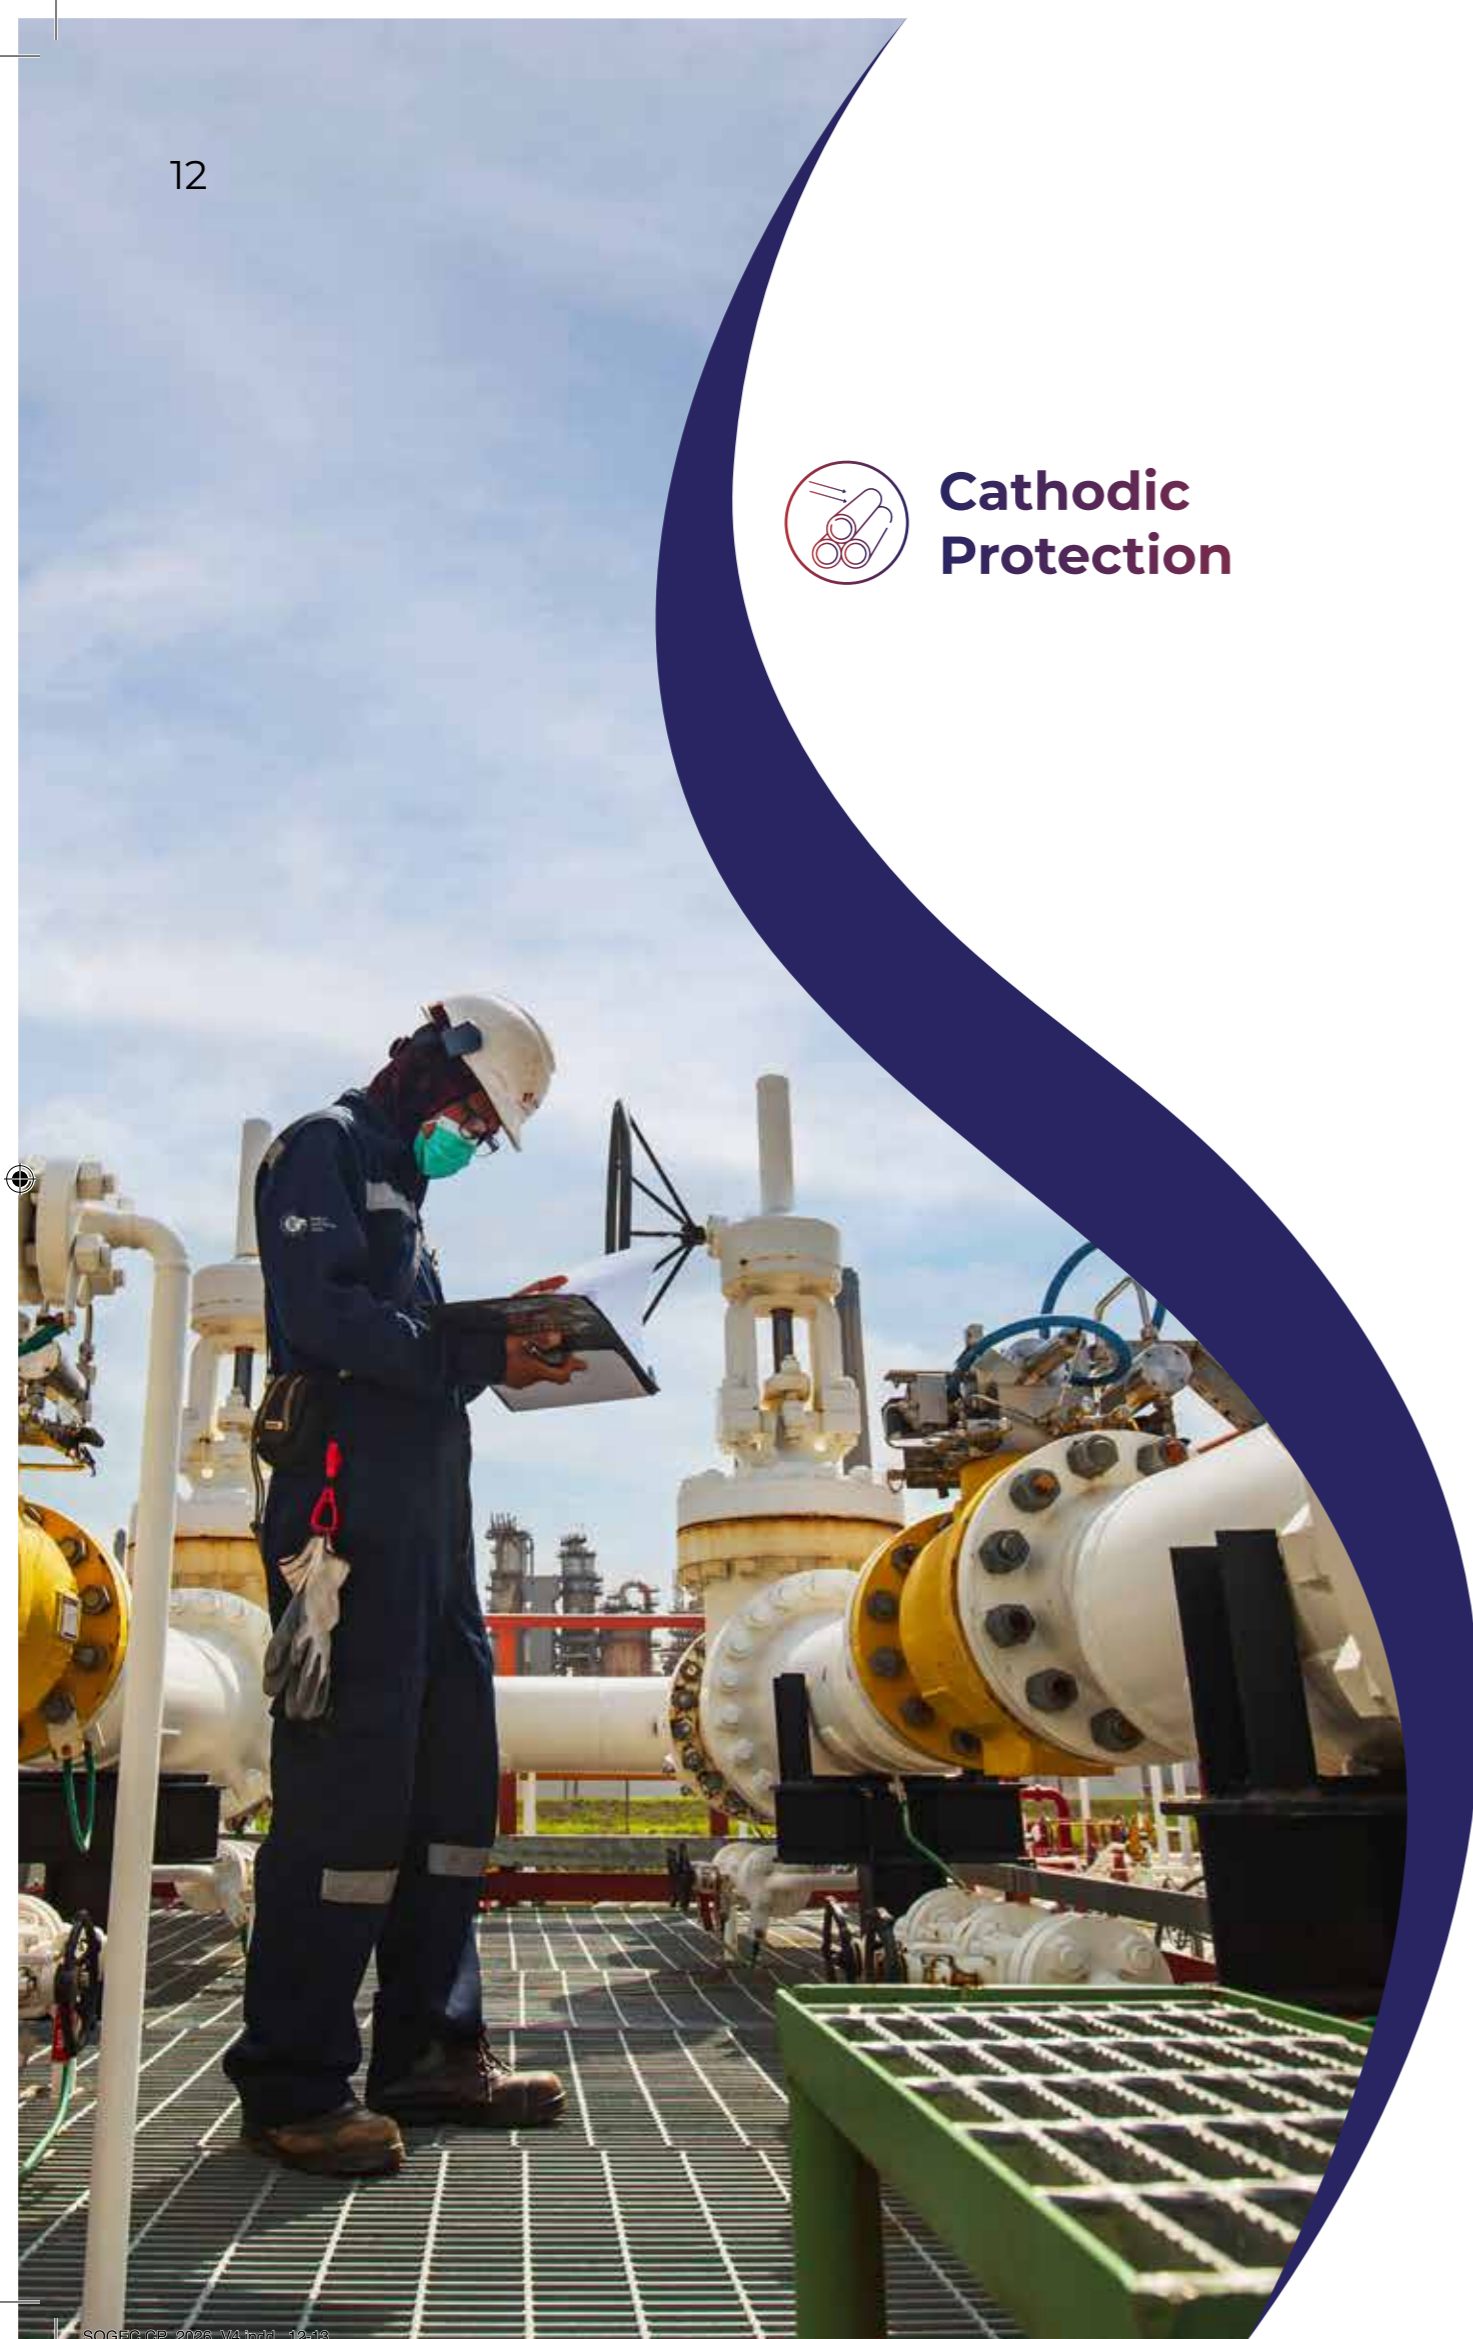

Inspection Services

Overhead Powerline Services (OHPL)

Cathodic Protection

Cathodic Protection Services: whether the project is a pipeline, tank, offshore, or concrete structure, SOGEC will design the right, economical, and most efficient Cathodic Protection (CP) System to protect the structure with the minimum required maintenance.

Cathodic Protection Services include:

- 1 Pre-Design & Site Survey of the Cathodic Protection System
- 2 Cathodic Protection System Design
- 3 Manufacturing & Supply of Cathodic Protection Materials
- 4 Installation of Cathodic Protection Systems
- 5 Testing, Commissioning & Monitoring of Cathodic Protection Systems
- 6 Over-the-Line Surveys
- 7 AC Interference Mitigation Systems

Corrosion Monitoring

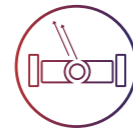

Corrosion Monitoring Services: SOGEC is also capable of developing efficient Corrosion Management Programs and providing Corrosion Monitoring Services.

Corrosion Monitoring Services include:

- 1 Internal Corrosion Services
- 2 External Corrosion Services

Vapor Corrosion Inhibitor (VCI)

Vapor Corrosion Inhibitor services: SOGEC/Zerust Oil & Gas Tank SSB Inhibitor Delivery System (IDS) offers a variety of VCI services that can help mitigate the underside corrosion of aboveground storage tanks. Our services are cost-effective and can be used on single or double-tank bottoms, regardless of the substrate. VCI systems can help extend the serviceable life of assets by protecting them from corrosion.

Vapor Corrosion Inhibitor Services include:

- 1 Chime Ring Dry
- 2 Chime Ring Injection
- 3 Underside Injection
- 4 Underside Drip Tube
- 5 Dry Tube
- 6 Internal Flood
- 7 Inhibitor IDS System benefits
- 8 Solution Effectiveness
- 9 Pipeline Casing Protection (Liquid, powder & Gel)
- 10 Equipment Preservation

Non-Destructive Testing (NDT)

Non-Destructive Services: SOGEC has many years of experience providing traditional NDT services and is also a leader in advanced NDT techniques.

We are committed to providing our customers with high-quality NDT services that meet their specific needs. All our NDT services are supported by our experienced team and performed in accordance with our ISO 9001:2000 Quality Program.

Non-Destructive Services include:

- 1 Advanced NDT Services
 - Phased Array Ultrasonic Testing (PAUT).
 - Time-of-flight diffraction (TOFD)
 - Tube Inspection Services (ECT, MFL, RFT, NFT & IRIS)
 - Magnetic Flux Leakage Tank Floor Inspection (MFLT)
 - Boroscope Inspections
 - Corrosion Mapping Services
- 2 Conventional NDT Services
 - Ultrasonic Thickness Gauge Testing (UTT)
 - Radiographic Testing (RT)
 - Radiographic Testing – SCARPRO
 - Digital Radiography Testing (DR)
 - Ultrasonic Shear Wave Testing – UT
 - Paint & Coating Thickness Testing.
 - Magnetic Particle Testing (MPT)
 - Dye Penetrant Testing (DPT)
 - Ferrite Testing (FT)
 - Leak Detection
 - Visual Inspection
 - Holiday Test

Heat Treatment

Heat Treatment Services: SOGEC has a high level of knowledge and experience in this service and a variety of equipment to make sure that client needs related to Heat Treatment are fulfilled with the utmost quality.

The HT team consists of around 97 experienced employees of different crafts (Engineers, Technicians, Inspectors, Helper, Specialists, etc..).

Heat Treatment Services include:

- 1 Post-Weld Heat Treatment (PWHT)
- 2 Pre-Heating
- 3 Refractory Dry-out
- 4 Solution Annealing
- 5 Hardness Testing
- 6 Furnaces
- 7 Stress Relieving
- 8 Internal Firing
- 9 Positive Material Identification (PMI)
- 10 Normalizing

Inspection Services

Inspection Services: at SOGEC, we have highly qualified and experienced certified Welding Inspectors and Metallurgists to provide a complete range of services like PQR qualification, NDT and PWHT of test coupons, and mechanical testing of the test pieces.

In addition to expert welding inspectors (AWS CWI / CSWIP) who can test welders using the necessary methods as required by the many welding codes and standards.

Our API Inspection team is specialized in providing both on-site and off-site management to complete your turnaround on schedule and support while your plant is in operation, in addition to turnaround-based inspection programs.

Inspection Services include:

- 1 PQR Qualification
- 2 WQT Witnessing
- 3 API Inspection

Third-Party Inspection Services include:

- 1 Technical Support Services for Shutdowns or Longterm
- 2 Welding Procedure Qualification Record and Welder Qualification Testing
- 3 Painting and Coating Inspection

Overhead Powerline Services (OHPL)

SOGEC offers complete overhead powerline (OHPL) solutions for both the beginning and end stages of projects, making sure the electrical systems are safe, dependable, and meet all standards from building to activation.

Overhead Powerline Services include:

- 1 **Civil & Structural Work:** Site preparation, right-of-way construction, excavation, drilling, backfilling, reinforced concrete foundations, structural steel erection, drilling, and fencing works.
- 2 **Electrical Installation:** Supply and installation of steel poles, 13.8KV & 34.5KV insulators, accessories, underground MV cables, transformers, disconnect switches, conductors, surge protection, auto reclosers, and LV systems, including metering and panels.
- 3 **Stringing & Tensioning:** Controlled conductor stringing, calibrated tensioning, and span-by-span sag verification in compliance with safety standards.
- 4 **Grounding Systems:** Complete grounding installation, including rods, thermite welding, and resistance testing as per international standards.
- 5 **Testing & Commissioning:** Transformer and cable testing, system validation, final inspections, and energization coordination.

All activities are executed in full compliance with Saudi Aramco SAES, SAEP, SAMSS, and GI standards and international standards, ensuring quality, safety, and operational excellence.

Our Projects

China Petroleum Pipeline Engineering Co-CPP

Location: Haradh, Saudi Arabia.

Scope of Work: Cathodic Protection System for North Gas Compression Plants (NGCP) Pipelines Project BI-02029-0003 (Permanent Material) for Saudi Aramco.

Aramco

Location: Saudi Arabia.

Scope of Work: Terrain and Soil Corrosivity Survey along Saudi Aramco Transmission Pipeline Corridors.

↳ National Petroleum Construction Company PJSC. (NPCC)

Location: Zuluf, Saudi Arabia.

Scope of Work: Cathodic Protection System for North Gas Compression Plants (NGCP) Pipelines Project BI-02029-0003 (Permanent Material) for Saudi Aramco.

↳ Specialized Industrial Services Co. Ltd. (SISCO)

Location: Turaif, Saudi Arabia.

Scope of Work: Cathodic Protection System for CRPO 4 Project in Turaif for Aramco.

↳ Tecnicas Reunidas Saudia

Location: Haradh and Hawiyah, Saudi Arabia.

Scope of Work: Cathodic Protection System for Haradh and Hawiyah Gas Compression.

↳ Saudi Aramco Total Refining & Petrochemicals Company

Location: Al Jubail, Saudi Arabia.

Scope of Work: Non-Destructive Testing for Covering all Conventional NDT Services For two months shut down pipeline corridors.

Aramco Yanbu Refinery

Location: Yanbu.

Scope of Work: Non-Destructive Testing for Supplying 37 API Inspectors & 4 Data Maintainers for two months of shutdown in the Refinery.

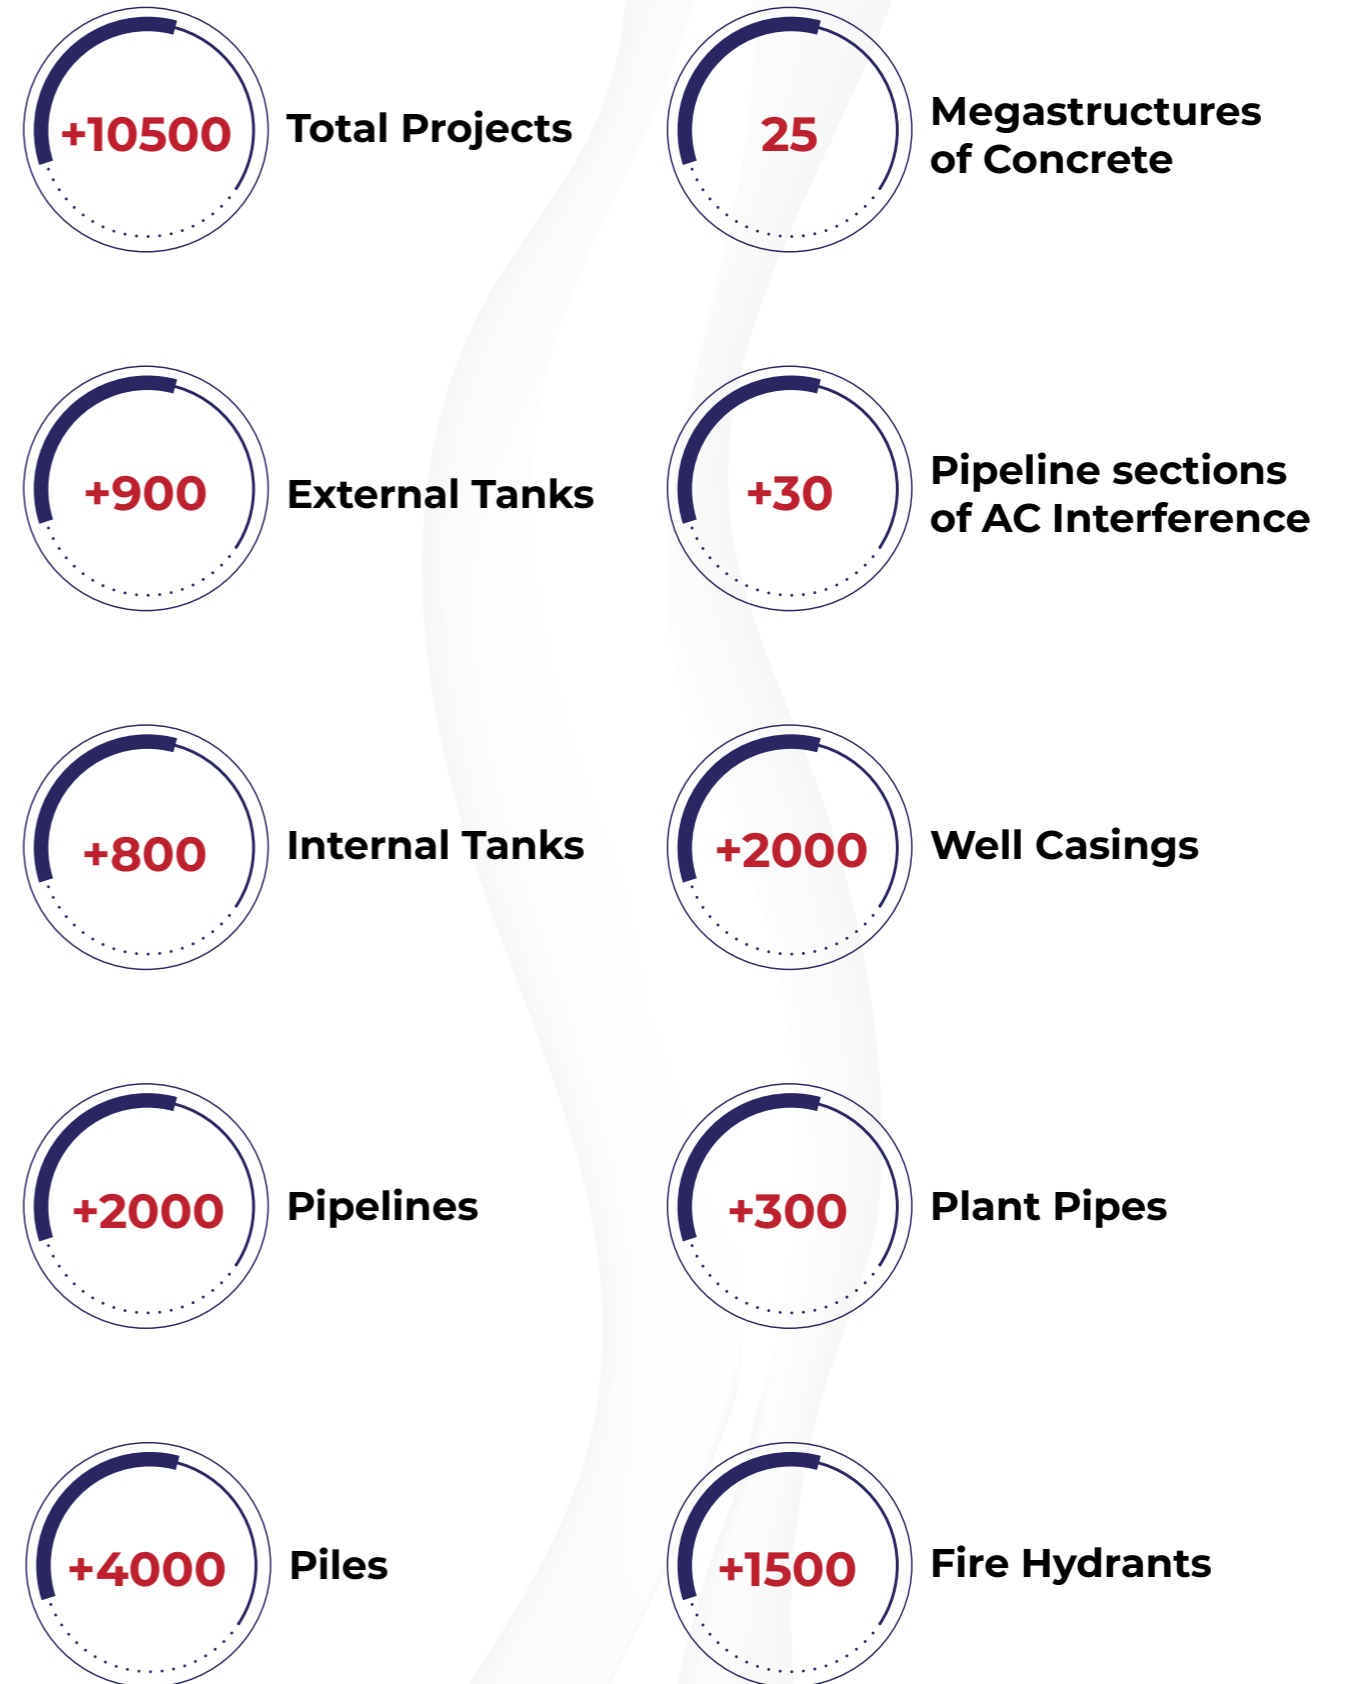

C.A.T. International Company

Location: Shaybah.

Scope of Work: Non-Destructive Testing for Covering all UTT Jobs for Five Months.

Kabbani Construction Group

KCG

IKK's contracting arm consists of +24 engineering & construction companies providing specialized engineering and construction services integrated to deliver advanced turnkey solutions for residential and commercial sectors throughout the region. We drive the development of specialized contracting and set benchmarks of high-quality standards. KCG leverages its experienced and highly qualified workforce over the years to deliver cutting-edge services.

1977

Since its inception in the 70s, KCG has grown to be a leading specialized contractor in the GCC & MENA regions. KCG is driven by innovation for integrated specialized construction services with advanced engineering solutions to provide full & tailored contracting services. We are offering Turnkey Services for commercial and residential sectors, Enabling & Road Works, Infrastructure Construction & Development, Tunneling (Pipe Jacking and Segmental), Oil and Gas Special Services, Urban Development, Airfield Construction Services, Fit-Out, Structure Protective Coating & Insulation Systems, Archaeological Investigation, Heritage Services (Consultancy, Conservation, and Restoration), Structural Condition Assessment, Structural Strengthening & Rehabilitation, Building Information Modeling (BIM) Services & Reality Capture, and Solar Energy Solutions.

Our Vision

KCG's vision is to be the leading provider of comprehensive solutions, leveraging smart construction innovation to strengthen competitiveness in our core business areas while positively impacting society and the environment through advanced, sustainable solutions. We aim to craft the future of construction through exceptional quality and digitalization.

Our Mission

Our mission is to guarantee the most satisfying project execution by being the resolution developer. Driven by quality, trust, and accountability, we deliver customer-centric solutions with advanced problem-solving approaches that inspire and ensure excellence in every project.

KCG

Business Philosophy

As we continue to grow, we adapt to global construction trends while upholding our position as one of the leading contractors in MENA. Our projects meet the local construction requirements, ensuring seamless integration with the international market's advanced standards.

Sustainability drives our construction philosophy as we build efficient, durable structures while minimizing our carbon footprint for a greener future.

Our employees are our most valuable asset. We foster autonomy and growth through training, ensuring a skilled workforce is equipped to deliver innovative solutions.

We understand that each client has unique needs. Our solutions are customized to meet specific requirements, ensuring optimal results for every project. We empower our clients by providing knowledge and expertise to make informed decisions.

At KCG, we believe in building strong, lasting relationships with our stakeholders including shareholders, employees, customers, and suppliers. Our commitment to integrity, transparency, & excellence ensures we meet and exceed our fundamental responsibilities.

IKK Group

Trust The Blue

IKK, Your Partner Since 1968.

Established in 1968, Isam Khairi Kabbani Group (IKK) is a leading Saudi family business and a pioneer in the construction industry. Our extensive portfolio encompasses every aspect of ambitious projects, including foundational infrastructure, building and construction materials, integrated contracting and engineering solutions, maintenance, building envelope and facade solutions, and refined interior solutions. Operating across multiple countries worldwide, we excel through mastering key business segments: Manufacturing, Trading, Contracting, Engineering, and Maintenance. This broad expertise enables us to address the diverse needs of the construction industry and beyond, including the food industry.

Blue is our identity, from where we began and continue...

The endless blue hues of Jeddah's skies and shores, where our story began, and our founder's deeply rooted passion for the ocean and sailing have always inspired us to push beyond the boundaries of possibilities, playing an impactful role in the Saudi economy and the region. It shaped the group's vision and mission to continue to drive IKK Group forward on its journey of growth and excellence and to be the first choice of our stakeholders.

IKK Values

The Blue Commitment

» **Excellence**

Standing as a benchmark for quality and distinction.

» **Integrity**

Accomplishing what we promised to achieve.

» **Innovation**

Embracing challenges as opportunities for business advancements.

» **Impact**

Striving to create a better present and future for all.

» **Respect**

Earning your trust with consideration, collaboration, and appreciation.
